Education

KL University   *Vaddeswaram, India*
B.Tech in Computer Science   *Dec 2025*
- **Courses:** Computer networking systems, Data Structures, Operating systems, Database management system, Artificial Intelligence for Data Science, Advanced Java, Python, Digital logic, and processors
- CGPA : 8.84

Work Experience

AICTE and eduskills   *India*
AWS cloud virtual intenship   *Dec 2022 - Feb 2023 · 2 mos*
- This internship provided me with a solid foundation in cloud computing concepts, such as infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS). Participants can understand the advantages of cloud computing and how it can benefit businesses.
- I learned about various AWS services, including computing, storage, databases, networking, security, and analytics. They can understand these services' features, use cases, and best practices.
- **Soft Skills:** Leadership, Time Management, Communication, Logical Thinking.

University Projects

Mayavi Teach CLub   *Vaddeswaram, India*
KL University   *May 2023 - July 2023*
- Led a team in conceptualizing, designing, and implementing a cutting-edge blog website for the college gaming club, fostering an environment for learning and collaboration in gaming technology, particularly Unity game development. The project aimed to provide a platform for enthusiasts to enhance their skills, share knowledge, and showcase their work.
- Achievements: Successfully launched the blog website, attracting a significant increase in club membership and engagement.
- Project Management, Web Design, Front-End Development (HTML, CSS, JavaScript), Content Creation, User Experience (UX) Design, Quality Assurance, Collaboration, Leadership.

Travel Tourism and Hospitality Website (Django)   *Vaddeswaram, India*
KL University   *Jan 2023 - Mar 2023*
- Developed a comprehensive web application using Django that revolutionizes the travel and tourism experience. The project focused on providing users with a seamless platform to explore, plan, and book their travel adventures. The website encompasses a range of features including hotel bookings, train reservations, tourist attraction browsing, user authentication, and secure online payments.
- Skills Utilized: Django, Python, Database Management, User Authentication, Third-party API Integration, Front-end and Back-end Development, User Experience (UX) Design, Payment Gateway Integration, Collaboration.

Space and Aesthetic Management System   *Vaddeswaram, India*
KL University   *Oct 2022 - Nov 2022*
- A Space and Aesthetic Management System (SAMS) is a system designed to manage the use and appearance of physical spaces within a facility or organization.
- This can include both indoor and outdoor spaces, such as offices, conference rooms, lobbies, hallways, and outdoor areas.
- The specific features and capabilities of a SAMS will vary depending on the needs and goals of the organization, as well as the size and complexity of the facility.
- This is the article written by me about our Skill development project: Space and Aesthetic Management System
